

Solium Whitepaper

1. Introduction

Solium is a decentralized meme-token project built on the Binance Smart Chain (BSC). It aims to bring simplicity, community-driven growth, and transparency to the forefront of Web3. With no VC funding, no team allocation, and no developer fees, Solium is designed for fair and open participation.

2. Vision

Our vision is to create a fun, fair, and community-centric project that thrives through decentralized ownership and contribution. We believe every holder should have equal opportunity in growth and governance.

3. Tokenomics
